

**Connecticut State University System (CSUS)
2007-08 Trustees Research Awards**

General Information

The award is given to faculty doing research work of exceptional promise.

Eligibility

Tenure-track or tenured Assistant and Associate Professors.

Nominees must be in good standings for continuation of contract with the university.

Recipients will not be eligible for reconsideration for the award for the following three years.

Number of Awards

There will be a total of five awards granted by the CSUS Board of Trustees: four university awards, receiving \$1,000 each, and a system award chosen among the university awards, receiving an additional \$1,000.

Nominations

Nominees are expected to demonstrate substantive research contributions, achievements, and scholarly activities in their academic field during the past five years by submitting compelling evidence of their research and/or creative work accomplishments.

Departments and programs are encouraged to nominate women, faculty of color, and members of other groups historically underrepresented in their discipline.

Source of Nominations

Nominations may originate from: Deans, Directors and Departments/Program Heads, administrators, award committees, individual faculty members and self nominations. All nominations should be coordinated through the appropriate academic unit (e.g., Dean's, departmental or program office)

Selection Process

University Awards

Each university will determine a process for reviewing and recommending one appropriate candidate for consideration for the University Award. For this purpose, the Vice Presidents of Academic Affairs will form an appropriate review committee. Once a candidate has been identified, the nomination will be submitted to the Trustees for their final selection.

A university may determine that there are no nominations sufficiently compelling to recommend for the award in a given year.

System Award

The CSU System Award will be selected from the four University Award nominees submitted. Nominations will be reviewed by a committee composed of CSU Professors. After reviewing the nominations, the committee will forward its recommendation to the Trustees for their final selection.

Publicity

Per Trustees' directive, the Chancellor will work with the Campus Presidents to ensure that maximum visibility is given to the awards through local and statewide print and electronic media.

2006-07 Awardees Public Recognition

March 29: 2006-07 Awardees are recognized at the CSUS Research Conference at Eastern Connecticut State University

2007-08 Awards Timeline:

December 17, 2007: Call for Nominations
