

Spring Courses 2009

Dr. Valerie Andrusko

ANT 102-01 40022 and
ANT 102-01 41848

Physical Anthropology
MW 02:00 pm-03:15 and
TR 12:25 pm-01:40

Study of humans as bio-cultural organisms and our place in the animal kingdom. Human origins and the fossil record bearing on humankind's evolution. Mechanisms of evolution with population genetics emphasized. Human variation (race) considered from an evolutionary perspective and the biological variability between and among modern populations. 3 credits.

ANT 322-01 42670
Fundamentals of Forensics
MW 03:25 pm-04:40 pm
C L O S E D

ANT 390-01 42673
Ethics in Anthropology
TR 01:50 pm-03:05 pm

Explores the ethical dilemmas faced by anthropologists in their search to study the cultural and biological diversity in the human species. Employs numerous case studies in cultural, medical, and biological anthropology and Archaeology to examine contemporary ethical issues. Prerequisites: ANT 101, PSY 100, SOC 100, or SOC 211. 3 credits.
