

eBill + PAYMENT SUITE

The eBill + Payment Suite is Sothern's Official method for sending student account statements. Students DO NOT receive paper statements (or bills) in the mail, rather students will receive an email notification regarding any changes to their account status. This service is a secure method for viewing student account information and for making online payments. eBill features and online payment options are available to all students at no charge.

eBill Features

- View current and previous billing statements online
- Receive automatic notification when new statements are available
- Share a link to statements with authorized users
- Make online payments with credit card or eCheck.

Electronic Refund

eBill allows students to designate a checking or saving account for direct deposit of student refunds. Students receive email notification when their eRefund has been processed.

Authorized Users

In addition to students receiving notification of new statements, students have the ability to add "authorized users" to their account - typically parents or employers. Authorized users will also receive email notifications of new online statements and account adjustments. Additionally, authorized users can make online payments with a credit card or eCheck.
