

Restoring Quizzes to eLearning Vista 4.2

These instructions are for the purpose of fixing Assessments that cause errors after the migration from eLearning Vista 3 to Vista 4.2

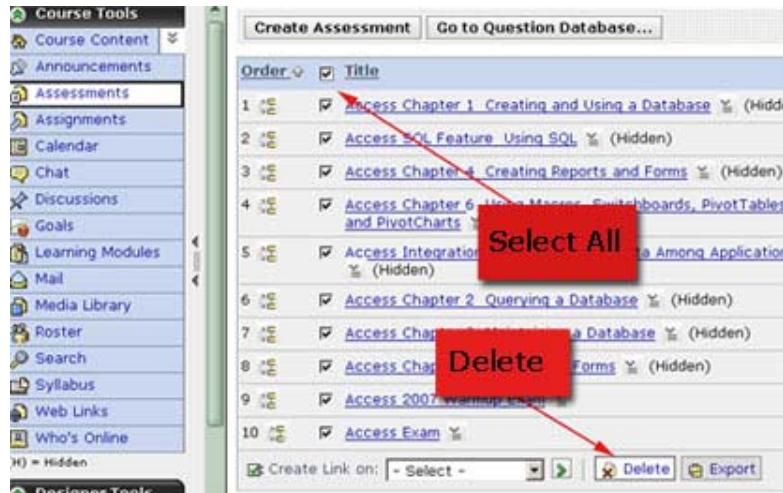

1. Log on to eLearning Vista 3
2. Go to Assessments
3. Export All Assessments -> Click on the checkbox next to "Title" which selects all. Then click the "Export" button at the bottom.

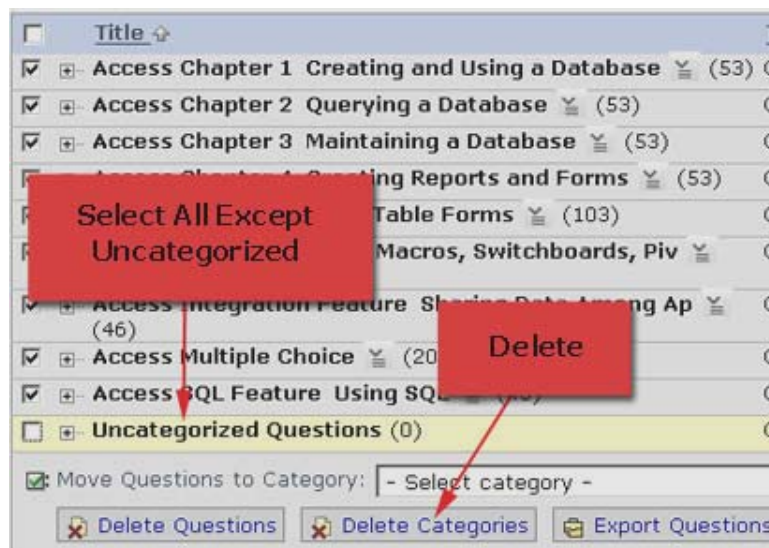

4. Name the file to be exported.
5. Go to File Manager
6. Find the file that you just exported (will be a .zip file)
7. Select it by placing a checkmark in the box and click "download" at the bottom of the page.

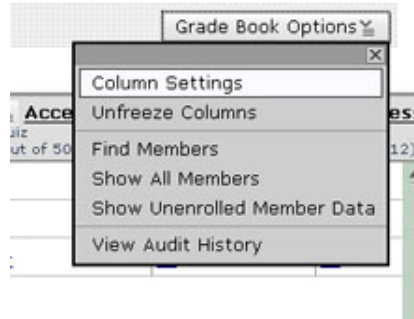

8. Log off Vista 3. Quit Browser. Log on to Vista 4.23
9. Go to Assessments.
10. Delete All Assessments -> Click the checkbox next to "Title" which selects all. Then click the "delete" button at the bottom.

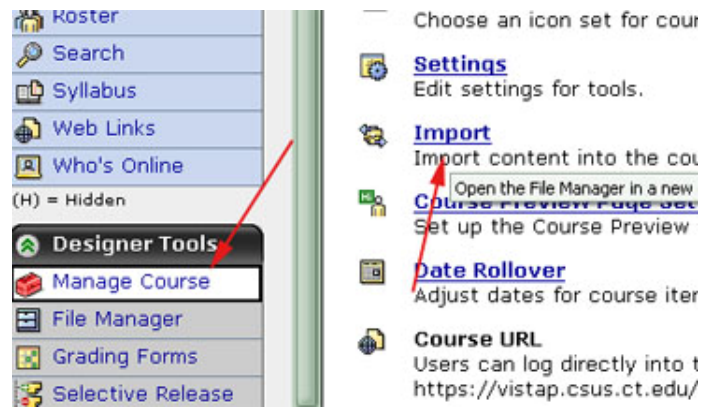

11. Now click on the "Go to Question Database" link.
12. Select all Categories except "uncategorized" and click "Delete" button.

13. If you note that you have questions in the Uncategorized Questions folder, go in to the category and delete all questions there as well.
14. Go to the Gradebook
15. Click "Gradebook Options" link on right-hand side.
16. Select "Column Settings"

17. Now select and delete columns for each deleted assessment.
18. Go to "Manage Course" Tool
19. Select "Import" Link

20. Navigate to where you downloaded the .zip file from Vista 3 and double-click on it.
21. This will re-add all your Assessments and their associated Questions.
