

Appendix C

“On or after July 1, 1998, any candidate in a Program of Initial Certification as an Intermediate Administrator /Supervisor shall complete a computer, and other information technology skills component of such programming, as applied to student learning and classroom instruction, communications, and data management.”- The Connecticut State Department of Education. The faculty has instituted an Ed. Tech. portfolio in lieu of a required course. If, however, the student has completed EDL 664: Administrative Applications of the Computer, he or she will have fulfilled the state requirement and will qualify for certification recommendation.

For the specific requirements and rubric for the Ed. Tech. Portfolio, please see the “Ed Tech Policy Bulletin” under Forms on the EDL website.
