

5/18/2009 14:50	Julia		Doherty	26547	Offer more 10 month positions (adjusting pay accordingly) There are many offices that could probably run with 3/4 or 1/2 staff during the summer. This would not only cut the cost of 2 months salary it would also cut power costs by running fewer computers, office lights etc.	dohertyj1@southernct.edu
5/28/2009 10:49	Carol		Dojny	X -25925	This is not a cost saving suggestion! I think there should be more handicap parking spaces available in the Engleman lot. Thanks!	dojnyc1@southernct.edu
6/1/2009 14:00	Crystal	M	Stowe	2038883715	Please lower or turn off the A.C. in Engleman Hall!! It is FREEEEEEZING! Plus, you'll save money on the electric bill :)	stowec1@southernct.edu
6/2/2009 13:20	J		Doherty	26536	Solicit sponsors for major university publications, and relevant department publications. For example, the Career Services Handbook could be sponsored (paid for) by some area employers. Alumni publications might be sponsored by a consumer products company, etc. Events might also have sponsors.	dohertyj1@southernct.edu
6/12/2009 10:32	Jasmine	A	Wilborne	507-2118	I have noticed that eletricity is being wasted in Engleman Hall. Please have professors turn off the lights when they leave their class.	wilbornej1@southernct.edu

6/14/2009 23:13 Natalie M Cooper 8609199309 As an experienced CA at SCSU, coopern1@southernct.edu

I feel it would be extremely beneficial to implement fines for all students who violate University/State Laws(on campus) such as possession/serving of alcohol by/to a minor,etc.

Students are violating these laws too often.By implementing a fine(& further punishment for second offense) we can help the university budget, & more importantly, hopefully make a larger impact upon the students regarding alcohol consumption/possession & continuing education on safe drinking practices & behaviors.

Social retirement base with lower retirement age: FedGov pays for it with capitol earned in a new Federal Economy fee taxed for all foreign products.

Change the Supreme court into a new Demarchy Council of American Citizens. 100% representation of the populace by allowing anyone to serve like jurors through random selection. More power in the hands of the populace less in the hands of the elitists who ruined our economy. When this happens declare that a new American Revolution took place and that there was a coux in the capitol. Under UN law our depts to foreign nations become odious dept and we never have to pay it.It is international law.

As a student living on campus you become more observant of the campus. I have noticed that during the school term there are a tremendous amount of outdoor lights on. Is it possible to maybe turn some of the lights off in the res-life quad, driveway, and academic side of campus after maybe 3am? I know that lighting = safety but there is a point where there is too much lighting. I'm not saying to turn off every light but how would it look if every other light pole was off after 3am.

8/12/2009 11:59	Joanne	Gandolfi	203 392-5896	Have 2 or 3 offices in the same area share on copy and fax machine that could be set up in a centrally area. This would cut down service contracts and machines	gandolfij1@southernct.edu
9/5/2009 17:10	Nick	K Chaleunphone	860-538-4577	To save money in a tight budget, lets reduce the number of textbooks, by making ebooks more available. Also we can reduce the cost of having paper test, by making them computer based testing instead of pencil and paper. Also we can make the school more energy efficient by putting solar powered panels on the roofs of the buildings. Make the campus energy efficient and even see about putting a windmill so the campus can generate it's own electricity.	chaleunphon1@southernct.edu
