

GRANOFF STUDENT HEALTH CENTER EXCUSED ABSENCE POLICY

The Health Center will NOT provide a medical excuse absence note. Please refer to Student Handbook and email your professor for absences from class.

A student who is absent from class less than 3 days for a medical reason, should discuss the issue with his/her professor. If a professor requires a note for a medical absence of less than 3 days, a written request on university letterhead must be submitted to the Student Health Center by the professor.

Licensed health center staff will not write excused absence notes for illnesses or problems for which we never provided care.

If care was received from an outside health care provider, a request for excused absence should be made to that provider.

Thank you,
Health Center Staff
