Faculty Technology Resource Center

Whereas SCSU exists for the primary purpose of furthering academic excellence; and

Whereas the demand by faculty for technology for instructional purposes has increased significantly over the last three years; and

Whereas there currently exists no facility where faculty may walk in and ask general or specific questions about the technology resources offered on campus, receive hands on experience with technology, have access to equipment and expertise for the development of instructional materials, or collaborate with other faculty to develop joint instructional projects; and

Whereas education of faculty regarding these technologies would further academic excellence;

The Faculty Senate resolves that space for such a faculty technology resource center be designated.
