

THE PROGRAM

The **PAcE program** provides scholarships to students who major in chemistry, biology, computer science, earth science, or physics – including our engineering concentration. In addition, we offer forensics and environmental science minors, with a major in one of the disciplines listed above.

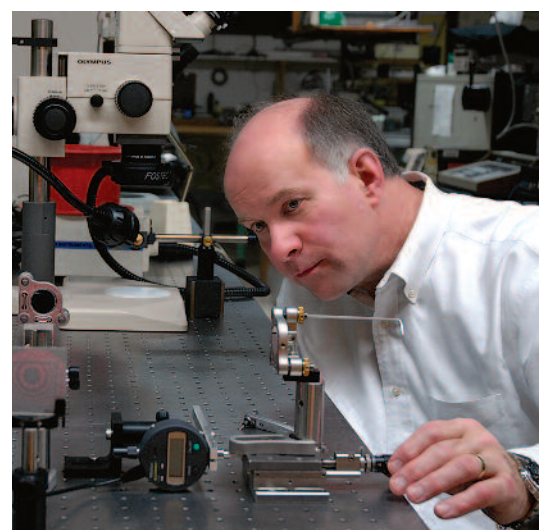

PAcE scholarships pay for any allowable educational expense up to \$10,000 per year for four years of study at Southern Connecticut State University.

PAcE scholarship recipients will become part of a carefully mentored learning community and will be provided a computer. Research and/or internship opportunities begin in the freshman year, as well as access to additional funds to support participation in research conferences.

Pathways to Academic Excellence

A SCHOLARSHIP PROGRAM FOR MATH AND SCIENCE MAJORS

THE APPLICATION PROCESS

To be eligible for a scholarship a student must:

- be a Connecticut resident
- maintain at least a B average in high school
- demonstrate financial need as determined by the Free Application for Federal Student Aid (FAFSA)

To remain eligible, the student must continue to major in math or science at Southern, and maintain at least a 3.0 grade point average.

Students must complete the Southern application process, and file a 2011/2012 FAFSA form* prior to applying for the PAcE scholarship. The PAcE application package includes:

- A completed application form, available at www.SouthernCT.edu/pathways
- A brief essay
- One or more letters of recommendation
- High school transcripts
- SAT or ACT scores
