

Unification of Teacher Preparatory Programs

Mini grant Program to Support Collaborative Efforts
to Promote the Unification of Teacher Preparatory Programs
and to Meet the Needs of Diverse Learners

Fall 2004

Proposal Cover Sheet

Name: Scott M. Graves Ph.D.

Department: Science Education & Environmental Studies

Project Title: Inquiry in Environmental Science through GLOBE (Global Learning and Observations to Benefit the Environment)

Project examines local, regional & global environmental phenomena, through inquiry, field studies and group research. Topics include environmental field site descriptions, monitoring, and data collection. A Systems Analysis approach examines environmental phenomena and events affecting atmosphere, hydrosphere, biosphere and geosphere.
