Dear Chairperson,

Please help us publicize summer job opportunities for Round Lake Camp; a special needs camp under the NJY Camps system in Lake Como, Pennsylvania.

We provide superior training for our counselors and specialists, each of whom is transformed for life as a result of such meaningful work. Your department may also have a fieldwork or independent study course that can be combined with this opportunity. We are eager to help advance promising students in their desire to work in our field.

The need for Round Lake is clear. Our children have social, emotional, and learning challenges, which stress them and their family systems throughout the year. Round Lake provides a safe, predictable, and highly structured environment, which fosters the development of positive social and learning skills.

Can you please post the enclosed flyers in a visible location?

Thank you for apprising your students of this excellent opportunity for personal and professional development.

Sincerely,

Lisa Tobin, MSW, MA/Ed, MA
Director, Round Lake Camp

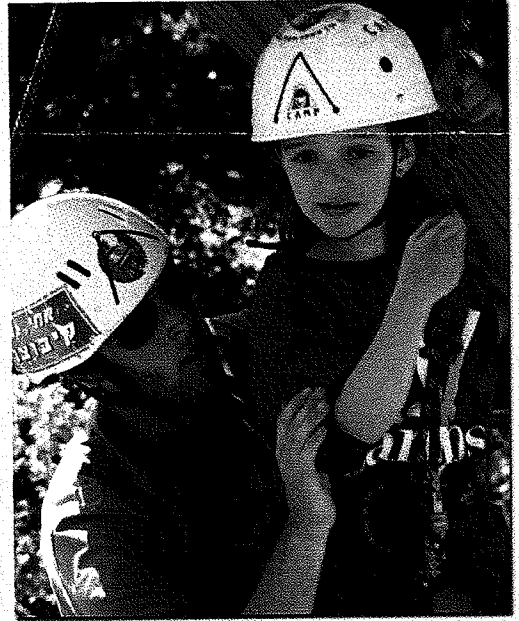

A handwritten signature in cursive script that reads 'Lisa Tobin'.
