

Heart Walk.

2016 Greater New Haven Heart Walk

Saturday, May 7, 2016

Savin Rock, West Haven

Registration: 9 AM | Walk Starts: 10 AM

Event Chair:

**Dr. Mary Papazian, President
Southern Connecticut State University**

Event Goal: \$430,000

The **Greater New Haven Heart Walk** is a noncompetitive three mile walk held annually in the spring. Funds raised support lifesaving research, education, and advocacy of cardiovascular disease and stroke while promoting a heart-healthy lifestyle. Just last year in Connecticut alone, the American Heart Association awarded forty-three research awards totaling over nine million dollars.

Who Does Your Torch Burn For?

Heart Walk.

Be sure to visit the Heart and Stroke Torch Tent at the Heart Walk to make a donation for your very own "torch" to personalize and carry on the walk. For your minimum donation of \$10, you can be part of this special tribute as we honor and remember those who have been impacted by cardiovascular disease and stroke. Torches are sponsored by Griffin Hospital.

Donations may be made via check, cash or credit card and must be made at the **Heart and Stroke Torch Tent** at the Heart Walk, between **9:00 a.m.** and **10:00 a.m.**

*Our torches will burn bright until
we have conquered the fight
against heart disease and stroke.*

Gift Basket Silent Auction

Heart Walk.

The **Gift Basket Silent Auction** is an easy fundraiser and any team member may participate by creating their own gift basket. Funds raised will be credited to your team total!

Just follow these simple steps:

1. Create a themed basket and email Angelina Stackpole the value and theme of the basket prior to the Heart Walk.
2. Bring your basket to the Heart Walk on May 7th along with an 8.5 x 11" sign listing the items, theme, and value. Baskets should be dropped off at the Gift Basket Silent Auction tent.
3. An American Heart Association staff member will set up your basket display for bidding. After the Heart Walk, you will be notified of the amount the basket has raised.

Throughout the Heart Walk, people may put in their bid for the basket of their choice at the Gift Basket Silent Auction Tent. The highest bidder wins and your Walk Team gets the credit!

If you have any questions, please contact Angelina Stackpole
203.303.3336 / angelina.stackpole@heart.org

Your Donations Make a Difference

YOUR DONATIONS to the American Heart Association and American Stroke Association are crucial to the fight against heart disease and stroke in your community — and in communities across the United States. Your gifts fund innovative research into the prevention and treatment of these devastating diseases, the No. 1 and No. 4 causes of death in America. And your support enables us to fight for stronger public health policies, improve the quality of healthcare nationwide, and provide lifesaving information to all Americans.

How Your Donation Can Make a Difference

- \$10** Makes it easier for people to find AEDs in public places. This donation covers the costs of placing 9 identification stickers in public places, directing people to these devices that can save someone's life. Congress mandated the public placement of AEDs in response to AHA lobbyists.
- \$20** Provides incentives for a *Get to Goal* participant as we encourage and reward individuals to track their blood pressure, weight and physical activity for better heart health.
- \$50** Provides information and inspiration to help four stroke survivors maximize recovery and independence with a subscription to *Stroke Connection*, a bi-monthly periodical and our biggest outreach to stroke families.
- \$100** Equips a hospital or health department with American Stroke Association resources to educate patients, the public and health professionals about stroke.
- \$200** Teaches ten families in your community the connection between good food and good health by showing them the ultimate heart-healthy recipes in *The New American Heart Association Cookbook*.
- \$300** Reaches 150 women with our *Go Red For Women*® movement. Provides our Red Dress pin, cholesterol/blood pressure/weight tracker and other tools to help them take charge of their heart-health.
- \$500** Teaches more than 2,500 children how to avoid obesity and live longer, stronger lives through our nutrition and exercise educational materials.
- \$1,000** Purchases 20 *Learn Rapid STEMI ID* trainings through our *Mission: Lifeline* program. This would allow 20 healthcare professionals to become proficient at identifying/diagnosing the deadliest type of heart attack.
- \$2,500** Can train over 100 families in CPR and AED usage through CPR Anytime kit, which can be kept by these families to refresh their skills at any time or shared with others.
- \$5,000** Funds a summer undergraduate student fellowship that allows college students to work in research laboratories under the supervision of experienced scientists.
- \$7,500** Brings five heart disease or stroke survivors to Washington, D.C., to educate their lawmakers and staff about issues that affect our nation's cardiovascular health.
- \$10,000** Provides a series of professional education webinars designed to inform physicians, nurses and EMS providers about new practice guidelines from our *Get With The Guidelines* programs and how to implement them in treatment of their patients.

American Heart Association | American Stroke Association®

life is why™

Heart & Stroke Research

Since 1949, the American Heart Association and American Stroke Association have invested more than \$3.8 billion in heart disease and stroke research. Donors have funded lifesaving research that has contributed to breakthrough advances, including techniques and standards for CPR, the first artificial heart valve, implantable pacemakers, cholesterol inhibitors, microsurgery and drug-coated stents. In all, the American Heart Association has funded 13 Nobel Prize winners, nine of whom won for work funded by the association. Here's what donors have helped researchers accomplish so far.

FOUNDERS AFFILIATE FUNDED RESEARCH

In 2015-2016, the American Heart Association and American Stroke Association are funding **320** research awards throughout the Founders Affiliate for a total value of **\$75,134,597**.

NATIONWIDE OPPORTUNITIES

Predoctoral Fellowship: Helps doctoral students initiate careers in cardiovascular and stroke research.

Target Audience: PhD, MD students.
1-2 years at \$23,000 per year for a total of \$46,000

Postdoctoral Fellowship: Provides training for and encourages pursuit of research careers.

Target Audience: PhD, MD not yet independent.
1-2 years on a sliding scale for a maximum annual award amount of \$42,000-\$55,300

Scientist Development Grant: Helps promising beginning scientists move from completion of research training to independent investigators.

Target Audience: no more than 4 years since first faculty/staff appointment.
3 years at \$77,000/yr for a total of \$231,000

Grant in Aid: Supports innovative, highly meritorious cardiovascular and stroke research projects from independent investigators.

Target Audience: All levels of faculty/staff members.
3 years at \$66,000/yr for a total of \$198,000

Mentored Clinical & Population Research Grant: Encourages early career investigators to engage in high quality introductory and pilot clinical or population studies.
Target Audience: Early career health care professionals with a Masters, MD, DO, or PhD degree.

1-2 years at \$75,000/yr for a total of \$150,000.

FOUNDERS AFFILIATE OPPORTUNITIES*

Undergraduate Student Fellowship: Allows college students to work in research laboratories under the supervision of experienced scientists.
10 weeks during the summer with a \$5,000 stipend

Medical Student Fellowship: Encourages medical students to consider a career in cardiovascular disease and work with established investigators.
12 months with a \$22,000 stipend per year which includes 10% indirect cost

*Founders Affiliate specific research opportunities are open only to residents of ME, VT, NJ, MA, RI, CT, NY, NJ.
