SOUTHERN ASTRONOMERS SHOOT FOR THE STARS

Earlier this year a team of SCSU astronomers developed image techniques that produced the sharpest images to date of R136, a bright cluster of stars in the southern constellation, Dorado. The images have helped scientists determine the mass of the most massive star yet discovered. Read more about these exciting findings from our very own Physics Professor, Elliott Horch!

CAREER FAIR

Join us Wednesday, October 19th from 11am-2pm in the Adanti Student Center Ballroom for the Career Fair! Discover career possibilities and meet prospective employers. All majors and class levels are encouraged to attend. We hope to see you there!

SCHOLARSHIP PROGRAM SUPPORTS MATH AND SCIENCE EDUCATION

The first cohort of Robert Noyce Teacher Scholars has a news flash for fellow students: you don't have to be a math or science whiz to become a good teacher in those fields. What you do need, though, is a good work ethic and a willingness to practice your craft. Oh, and a dose of self-confidence goes a long way. The Noyce Scholarship Program is launching this year through a \$1.4M grant from the National Science Foundation. The five-year grant is designed to reinforce science and math education in the state's high-needs school districts. If you're interested in applying, contact Carrie-Anne Sherwood at Sherwoodc4@southernct.edu For the full story visit: <https://www.southernct.edu/owlsteach>

RESEARCH EXPERIENCE FOR UNDERGRADUATES

Left Image: 2022 REU's Gather for a Networking Luncheon

The 2022 Research Experience for Undergraduates fellowship is underway! This paid experience provides the opportunity to gain valuable laboratory and research experience outside the classroom. Whether you are

interested in applying for jobs or continuing your education after completing your degree, this fellowship provides applicable skills for your career success. On October 7th, the Innovation Hub held an orientation welcoming the current twelve REU students. These students are conducting research alongside their faculty mentor this academic year from disciplines such as Biology, Chemistry, Data Science, and Environmental Science. Interested in applying for upcoming REU's? Applications for our Summer 2022 REU fellowship open in the near future!

WHO'S IN THE OFFICE?

Muhaymina Plair is an Academic and Career Success Coordinator here at BioPath. She is a SCSU Alum who graduated with her Bachelors in Business Management last December. In her free time she likes to sew, draw and paint. We are very grateful to have such a creative mind in our department!
