4. Please provide any additional information about the information provided above:

We offer two post graduate programs that lead to initial certification: * Post Baccalaureate programs that do not lead to a degree. * Masters in Arts of Teaching programs (MAT) that lead to a Masters degree. For program completion: * For the Post Baccalaureate programs: The required GPA for completion is 2.7 * For the MAT programs, the required GPA for completion is 3.0

Supervised Clinical Experience

Note: The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2020-21. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

31

Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year

299

Number of students in supervised clinical experience during this academic year

331

Please provide any additional information about or descriptions of the supervised clinical experiences:

The number of hours of supervised clinical experiences and the number of hours for student teaching vary by program. We reported the average number of hours of all programs. In Fall 2020, and due to the pandemic, several clinical courses used an alternative assignment in a virtual setting in lieu of classroom and thus the number of mentor teachers decreased.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Enrollment and Program Completers

2020-21 Total	
Total Number of Individuals Enrolled	621
Subset of Program Completers	207

Gender	Total Enrolled	Subset of Program Completers
Male	130	42
Female	491	165
Non-Binary/Other	0	0
No Gender Reported	0	0
Race/Ethnicity	Total Enrolled	Subset of Program Completers

Native Hawaiian or Other Pacific Islander	0	0
White	456	164

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	17	7
No Race/Ethnicity Reported	26	4

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

- Academic Major

THIS PAGE INCLUDES:

>> Teachers Prepared by Subject Area

>> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2020-21.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

☐

No teachers prepared in academic year 2020-21

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2020-21. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(\\$205\(a\)\(1\)\(A\)\(iii\); \\$206\(b\)\)](#)

Program Assurances

Note: This section is preloaded from the prior year’s IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

☒ Yes

☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

☒ Yes

☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

☒ Yes

☐ No

☐ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

☒ Yes

☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

☒ Yes

☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

☒ Yes

☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

☒ Yes

☐ No

8. Describe your institution’s most successful strategies in meeting the assurances listed above:

• NEW: Established an external advisory board with regional educational alliances for consultation and feedback. • Use data from key assignments to foster discussions about meeting the needs of the students as well as initiating any course adjustments and/or changes to ensure that the students are prepared to meet the demands of teaching in the area of Special Education • Programs ensure curriculum is current and aligned with professional standards, state regulations and statutory laws, and continuous improvement plans for CAEP national accreditation • Programs utilize team approaches to student advising, scheduling and scaffolds to improve candidates’ professional dispositions over time • Develop and implement partnership agreements with local K-12 school districts (district level MOUs) and direct point-to-pint contact with our dedicated Office for Educational Field Experiences to maintain positive relationships with school leaders and cooperating teachers

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Report Progress on Last Year’s Goal (2020-21)

1. Did your program prepare teachers in mathematics in 2020-21?

If no, leave remaining questions for 2020-21 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

Our short-term goal will be to recruit 4 new mathematics education students next year. Our long-term goal is to get to at least 10 student-teachers per spring semester, through the M.A.T. program and the B.S. Mathematics 7–12 program. This will be done using various outreach projects including the newly formed Math Circle, funded by the Dolciani Grant, where we will work with middle school students and teachers on interesting mathematics projects one Saturday per month. Recruiting high school students will be done using the MaPP competition, where students come for a one-day scavenger hunt solving mathematical puzzles along the way. We hope to see results from these outreach activities in 3 – 5 years. One way to help us reach our goal is to revise the mathematics major degree requirements, possibly removing the B.S. Mathematics 7-12 program and replacing it was a 4+1 program, where students get a B.S. Mathematics and a M.A.T. in five years. We think this will be a great recruiting tool for students.

3. Did your program meet the goal?

- ☒ Yes
- ☐ No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2021-22)

7. Is your program preparing teachers in mathematics in 2021-22? If no, leave the next question blank.

- ☒ Yes
☐ No

8. Describe your goal.

Our goal is to recruit 3 candidates for AY 2021-2022. Our long term goal is to use the recently awarded NSF Noyce Scholarship program (2021-2026) to sustain the number of B.S. Mathematics (7-12) majors in the years 2024 – 2028.

Set Next Year's Goal (2022-23)

9. Will your program prepare teachers in mathematics in 2022-23? If no, leave the next question blank.

- ☒ Yes
☐ No

10. Describe your goal.

Our short-term goal is to recruit 3 candidates for AY 2022-2023 through the newly established Accelerated Pathway M.A.T. program and the B.S. Mathematics 7–12 program. We expect this new Accelerated Pathway program will be an attractive option for many pre-ed majors (including transfer students) because they can obtain both Bachelor's and Master's degrees within 5 years.

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Report Progress on Last Year’s Goal (2020-21)

1. Did your program prepare teachers in science in 2020-21?

If no, leave remaining questions for 2020-21 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

We aim to apply for a Noyce grant scholarship to help recruit more students in Science and prepare 12 students.

3. Did your program meet the goal?

- ☒ Yes
- ☐ No

4. Description of strategies used to achieve goal, if applicable:

We met this goal in that we did apply for and receive a Noyce Grant to recruit science teachers, and we were preparing at least 12 science teachers this year.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

7. Is your program preparing teachers in science in 2021-22? If no, leave the next question blank.

- ☒ Yes
☐ No

8. Describe your goal.

We aim to add five more students to our science education program for the AY 2021-2022. Through the Noyce Grant, we aim to recruit and prepare 30 candidates into the local workforce over the 5 years.

Set Next Year's Goal (2022-23)

9. Will your program prepare teachers in science in 2022-23? If no, leave the next question blank.

- ☒ Yes
☐ No

10. Describe your goal.

We aim to add at least five more students to our science education program for the AY 2022-23. During this year we will have our first cohort of Noyce Scholars, and we hope that our recruitment efforts for that program will result more generally in more and stronger science education candidates. Our post-bacc and MAT programs continue to be excellent pathways for students who already have bachelors or even graduate degrees to obtain teaching certification in the sciences.

Annual Goals: Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

We will be developing partnerships in 2 urban districts in CT, and aim to increase our enrollments and diversify our population of special education students.

Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Report Progress on Last Year’s Goal (2020-21)

1. Did your program prepare teachers in instruction of limited English proficient students in 2020-21?

If no, leave remaining questions for 2020-21 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

The goal is to increase the enrollment for bilingual education to approximately 12 students in a number of ways. We have developed a new advising model that allows our Pre-Education Coordinator to meet with all pre-education students beginning in their first semester at SCSU, including transfer students. The coordinator, an expert in bilingual education, speaks specifically to this track and the need in the state for bilingual teachers. Most pre-education students are unaware of the bilingual path. The coordinator has already recruited a few first-year students to the pre-bilingual tract. We are hopeful that these recruits will eventually enter the program.

3. Did your program meet the goal?

- ☒ Yes
- ☐ No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

We have met most of the goals stated above in establishing a bilingual coordinator position and a pre-ed advising model. We aim to revise enrollment

projections to a more realistic level based upon supply.

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2021-22)

7. Is your program preparing teachers in instruction of limited English proficient students in 2021-22? If no, leave the next question blank.

☒ Yes

☐ No

8. Describe your goal.

The goal is to increase the enrollment for bilingual education to approximately 9-10 students.

Set Next Year's Goal (2022-23)

9. Will your program prepare teachers in instruction of limited English proficient students in 2022-23? If no, leave the next question blank.

☒ Yes

☐ No

10. Describe your goal.

We aim to sustain the present number of enrollment in our undergraduate and graduate programs.

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(\\$205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

☒ Yes

☐ No

b. use technology effectively to collect data to improve teaching and learning

☒ Yes

☐ No

c. use technology effectively to manage data to improve teaching and learning

☒ Yes

☐ No

d. use technology effectively to analyze data to improve teaching and learning

☒ Yes

☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All programs prepare our candidates to integrate technology effectively into curricula and instruction. This is infused in curriculum throughout the candidates program. Some programs instruct candidates to review software that is available by discipline to enhance instruction. Most programs instruct candidates to utilize technology to effectively collect, manage and analyze student data. This is infused into programs through a variety of ways. In some programs, mini tab statistical analysis is used, in others excel spreadsheets and graphing are utilized to demonstrate the results of pre and post testing. Universal Design for learning is infused throughout some of the programs. This concept promotes the idea of designing all lessons/learning experiences right from the beginning to be accessible to the broadest range of learners. Candidates are taught to provide multiple means of representation (to present all information in a variety of formats/media), to provide multiple means of expression (all students to demonstrate knowledge in a variety of ways, not just through writing), and to provide multiple means of engagement (design learning opportunities to engage learners such as working with partners or small groups as well as letting students select the type of material from which they want to learn specific information). Candidates in several programs also learn to consider a broader definition of 21st century literacy and are required to design instruction that integrates multiple forms of media and alternate forms of expression (in addition to traditional print text). Technology integration in the classroom, managing and analyzing data and improving teaching for the purpose of the principles of UDL will be a large focus in the next academic year.

Provide the following information about your teacher preparation program.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All candidates take one of the following courses depending on their program, SED 225 – Introduction to Exceptionalities, SED 481 – Teaching Exceptional Students in the Elementary Classroom, SED 482 – Teaching Exceptional Students in the Secondary Classroom, or SED 502 – Introduction to Exceptional Students. Each of these courses focuses on addressing the legal, educational, and instructional needs of all students with exceptionalities. Our candidates are prepared to design instructional activities to meet identified needs, and modify instruction so students can participate successfully in the least restrictive environment.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

All certification candidates get the opportunity to participate as a member of individualized education program teams as an activity in one of the courses listed above.

c. Effectively teach students who are limited English proficient.

All certification candidates take either EDU 471 – Supporting English Learners or the graduate-level equivalent EDU 571 – Teaching ELLs in the Regular Ed Classroom to ensure they are able to meet the needs of students who have limited English proficiency.

2. Does your program prepare special education teachers?

☒ Yes

☐ No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

All certification candidates take one of the following courses SED 225 - Introduction to Exceptionalities, SED 481 - Teaching Exceptional Students in the Elementary Classroom, SED 482 - Teaching Exceptional Students in the Secondary Classroom, or SED 502 – Introduction to Exceptional Learners. Each of these courses focuses on the historical and legislative foundations of special education, characteristics and instructional needs of students with exceptionalities. Our candidates are prepared to conduct diagnostic assessments and design instructional activities to meet identified needs and modify instruction so students can participate successfully in the least restrictive environment. Students complete clinical field experience components in the following courses: SED 365 Basic Principles of Academic Assessment and Remediation for Exceptional Individuals or SED 509 – Mathematics Instruction for Exceptional Learners, SED 435 Language Arts for Exceptional Individuals and lesson planning or SED 521 – Diagnostic Assessment of Exceptional Learners, and SED 449 School Based Experience in Special Education or SED 519 – Clinical Practices in Developmental Disabilities. In addition, there are 5 additional Special Education courses at the undergraduate level and six additional courses at the graduate levels that prepare candidates to develop, implement and evaluate individualized educational programs, collect and analyze data to make instructional decisions, develop positive behavior supports and interventions, utilize assistive technology, plan for post-secondary transition and

collaborate with families and other school professionals for students with exceptionalities.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Our students are also required to take SED 325 – Curriculum and Methods for Exceptional Individuals, or SED 504 – Curriculum and Program Planning for Exceptional Learners, which focuses on developing annual individualized educational goals and objectives for learners with exceptionalities, evidence-based instructional strategies, and effective participation as a member of students' IEP teams.

c. Effectively teach students who are limited English proficient.

All candidates also take EDU 471- English Language Learner or the graduate-level equivalent EDU 571 – Teaching ELLs in the Regular Ed Classroom to ensure they are able to meet the needs of students who have limited English proficiency. To complement the coursework, several of the courses candidates enroll in have clinical fieldwork.
